

Maddy Godine  
Northport  
LD 2106

I am in support of LD 2106. This country should stand with the democratic standards of due process, and allowing ICE to disappear people in public spaces, without proper judicial review, goes against everything this country stands for. We are a country of immigrants, and treating people seeking asylum and refuge in this country is both hypocritical and illegal. I want ICE out of the our streets, out of our public spaces and out of our state.
