

Deborah Jordan  
PORTLAND  
LD 2106

Please vote to pass LD 2016. People must feel safe to send their children to school, receive medical care, and visit their houses of worship. These protections have been in place for many years, and agreed upon by both Democrats and Republicans. Our neighborhoods are being terrorized. It is well documented that ICE is not just arresting violent criminals - "the worst of the worst." They are abducting immigrants who are in this country legally. All of us who are not Native Americans are the descendents of immigrants. It is essential that LD 2016 pass. Please stand up for the people of Maine. Thank you.
