

Karen Lin  
Gorham Cooperative Preschool  
LD 2106

As the lead Teacher of a small Cooperative Preschool, part of my job is to ensure that our policies keep students safe. Five years ago I was drafting Covid policies. This past week I drafted ICE policies. I already knew that the Federal Policy of Safe Spaces was abolished last January. I also know that our facility is considered private property and that we have the right to refuse entry without a judicial warrant. This legislation would be helpful for people like myself trying to make decisions and policies that keep the children we serve safe. I urge the legislature to pass this bill.
