I am writing testimony in SUPPORT of LD 2106.  
Federal agents or other law enforcement should only be able to enter schools,  
hospitals, day cares and libraries with a signed judicial warrant.

I know kids who are afraid to go to school since ICE and CBP agents have entered  
our state of Maine in larger numbers. We are aware of students that have been taken  
by these agents. Our public institutions should be safe places for ALL people.

Thank you!
