

James Melloh
South Portland
LD 2106

Dear Judiciary Committee Members,

Please vote to support LD 2106. Our schools, healthcare facilities, day cares, and libraries must be free of armed invasion by those who wish to intimidate, harass, and assault law abiding citizens. Judicial warrants should be required, and are necessary as part of due process. Attacks based on race and ethnicity are not consistent with our Constitution. Law enforcement officials should not be masked and have ID clearly visible. As a retired health care provider I am very concerned about the abuse of the law by ICE and the trail of trauma wounds, physical and mental left in their path. Imagine your 3 yo child or 6 yo grandchild experiencing their terrifying raids. Please protect all of those in our country legally.
