

Natalie Morgenbesser  
Scarborough  
LD 2106

My name is Natalie Morgenbesser and I am a resident of Scarborough and senior at Scarborough High School writing in strong support of LD-2106. Many students at my school have not been feeling safe with increased ICE presence. Libraries, healthcare facilities, and schools exist to better our communities and promote a sense of belonging. Ensuring proper search and entrance into these buildings will allow them to continue community fostering, and protecting individuals and their information. The last thing we want are for these public institutions to become unsafe and barren of the wonderful people of Maine. Thank you so much.
