

Maureen Morse
Portland
LD 2106

As a resident of Portland for the past ten years, I have seen firsthand the value that our immigrant neighbors bring to our community. We are a more vibrant, a more economically secure, and a more inclusive state with these vital community members, and we must protect them against the lawless federal institution ICE that is currently terrorizing them. When one Mainer is terrorized or abused, so are we all. Please support LD 2106, a vital first step toward getting ICE out of Maine, and protecting the most vulnerable members of our community.
