Caribou
LD 2106

As a Maine resident and educator, I am deeply concerned by recent actions taken by federal agents affiliated with ICE. There is growing evidence of excessive force and disregard for established immigration laws and due process. In many cases, individuals who are actively and lawfully pursuing legal status have been detained, creating widespread fear within immigrant communities. As a result, people are avoiding work, school, childcare, and even necessary medical care. These are harms that affect all Maine residents. For these reasons, I support LD 2106. Everyone deserves to feel safe living in this state and carrying out daily life, particularly in matters of employment, education, childcare, and healthcare.
