Megan S.
LD2106 Testimony, 1.29.26

Good afternoon Senator Carney, Representative Kuhn, and Members of the Judiciary Committee,

I am writing today in support of LD2106. Federal immigration enforcement should always be required to provide a judicial warrant especially in vulnerable places like schools, day cares and medical facilities. Due to the unconstitutional actions of the current administration and immigration enforcement throughout the country it is especially important that we protect our residents by requiring fully executed warrants signed by a judge.

I am watching as my friends and loved ones, people of color, legal immigrants and neighbors fear for their safety day after day. It is imperative that not only do we, as a state, require strict adherence to the law and the constitution but that we also protect the most vulnerable members of our community from violations of their rights.

In addition, our educators, healthcare providers and child care workers all deserve to have the legal tools to care properly for their students, patients and the children in their care. ICE has no role in these places.

Please support LD2106 and protect the rights of residents of Maine.

With thanks,
Megan
