I urge you to pass this legislation. My nephew is black. He and his parents have lived here legally their entire lives, for many generations. Yet, because he is one of very few black children in his school district, I worry every single day.

It would only take 1 parent or 1 child or 1 member of staff; to call an ICE tip line. Although my nephew is here 100% legally, who knows what could happen. Many legal citizens have been detained by over zealous ICE agents. Civilians have been murdered in the streets. We must keep our children and our vulnerable safe from the secret police that have invaded our state.

Thank You.
