LD 2106

Please pass LD 2106. I have a kindergartener at Ocean Ave. Some of her non-white classmates have been absent lately. Their parents shouldn't have to worry about their child's safety when they send them to school. All students deserve to feel safe and secure and shouldn't have to feel the burden of their parent's fear. ICE is causing their fear and without this bill, they are free to run rampant around our beautiful state. Thank you of your consideration.
