Members of the Judiciary Committee: My name is Beth Broderick and I live in Portland, Maine. I am writing on behalf of the Maine Youth Action Network to testify in support of LD2106. I have worked in youth development for more than 20 years and care greatly about young people in Maine.

Schools and communities have an obligation to create supportive environments where all youth can thrive and contribute. As a parent, I want what every adult wants for their children: safety and opportunity. As a local sports coach and as the Director of MYAN, I want these things for every child in Maine.

LD2106 ensures that all people in Maine can access crucial public services and meet basic human needs without fear. It addresses the federal government's indiscriminate immigration enforcement and abates the growing crisis spreading across our country and state. It provides important clarity about the duty of workers to keep information confidential and immigration agents out absent a valid judicial warrant. That clarity is essential in order to return students to the classrooms in which they belong.

The mission of MYAN is to strategically convene, collaborate, and partner to build young people's leadership skills and to strengthen the work of adults and organizations supporting them. The Maine Youth Action Network is a statewide community of committed adults and passionate young people who believe in the transformative power of youth leadership. We value young people's thoughts, voices, and solutions for creating more equitable communities and just systems. Young people's passion is the vehicle for building leadership skills, resiliencies, positive relationships, and personal agency. These are the factors that help young people lead healthy and successful lives.

Leadership is not, nor has it ever been the loudest voice or getting the best soundbite on television. As adults, we have an obligation to lead, right now, in a manner that models the type of contribution we hope to see young people make. Support for LD2106 is an excellent opportunity for this committee to lead us towards the things each of us wants to people in Maine.

Thank you again for the opportunity to share my testimony with the committee. I respectfully urge you to support LD2106 before the committee today and any similar efforts in the future.

Thank you,

Beth Broderick
