LD 785

Please vote Ought to Pass on LD 785, which would include 4 major Rights Components that non-Wabanaki citizens enjoy and hold dear. Criminal Jurisdiction; Taxing Authority; Fish and Game; and Land/Natural Resources Management. Imagine living a life where you owned property but could not manage it how you wished to. What else could it be other than Racial Discrimination that's stopping Wabanaki from having these rights--as they were published by the bipartisan, culturally-diverse Task Force on Changes to the Maine Indian Claims Settlement Act? Also as passed in 2019 by the 129th legislature. Once again your committee has the opportunity to correct these injustices, so please vote Ought to Pass LD 785.
