Dear Legislators, Thank you for your service to the people of Maine. I am writing to ask you to support Wabanaki Sovereignty and Indigenous rights in Maine. It is long past time that we make things right. I live on 24 acres of land I own in Limington, surrounded by trees and near the beautiful Little Ossipee River. It has been my bit of heaven for over 40 years. I do not want to enjoy it at the expense of the people from whom it was taken, with treaties that were not honored or that are now hindering their success. Research has shown that returning Indigenous sovereignty and giving back resources and support, increases the prosperity of ALL surrounding communities. Please do the right thing. Thank you.
