To the members of the committee:

I am writing in support of sovereignty for the Wabanaki Nation. It is shameful the way this state treats its indigenous people. We are a national disgrace in this regard and most certainly, not "Dirigo." One of my hopes when I first voted for Governor Mills was that she would support sovereignty for the Wabanaki. She has been a huge disappointment where this is concerned.

Please correct this egregious situation.

Sincerely,  
Maria C. Cruz
