Portland
LD 2239

I am writing in opposition to anti-LGBTQ ballot initiative, LD 2239.

This measure is bad for Maine kids and Maine schools for many reasons. One of which is that people are LOUSY at guessing other people's genders. I should know. I am a cis gender woman in her 50s who does not remember a time when people did not question her gender. Bathrooms are the worst.

As a former high-school and collegiate athlete, I'm disgusted that proponents of this bill state that they are "protecting women's sports." When policies attempt to segregate trans people and restrict gender identity and expression harm, the harm extends to everyone.

Thank you for your attention and your herculean efforts for the people of Maine.
