LD 2239

I am writing to urge that you pass LD 2239!

I have nothing against trans kids, but it is a complete violation of the rights of girls to force them to compete against biological males. The rights of one group do not entitle them to deny the rights of another much larger group.

FWIW, and to prove I am not "transphobic", I think it would be perfectly ok for biological females who think they are men to compete against men in male designated sports, because they would not be infringing on the rights of male athletes, since they would have no advantage. (Interestingly, this has never happened!!!).

But biological males competing against women have a CLEAR advantage, and so this is a violation of the spirit and purpose of Title IX, and denies the rights of all girl athletes. PLEASE PASS 2239!!!

Common sense is not transphobic! Listen to the IOC, listen to Bob Costas, stop being cynical and ridiculous!! It makes NO SENSE to allow biological male to steal victory from girls who have worked their whole lives to be the best at something.
