I would like it known that I am 4LD2239

I think this trend toward gender madness is ridiculous

I do not want boys in my granddaughter's bathroom

I do not want tampons in my son's bathroom

I do not want children to even be the least bit confused about any of this

Additionally, having read the description of what people are voting for is ridiculously deceptive and manipulative and should be rewritten so that people understand what it is they're voting for or against
