Please pass LD 211. If you are questioning if you should vote to pass, I ask you to do the following:

Pick a person you truly love . . . wife, son, grandmother, friend.

Think of how, for whatever reason, this person's journey in life has led them to homelessness.

Now imagine them standing, eating, sleeping outside while it is snowing, sleeting and covering them and the street they live on in ice.

Would you want this situation for the person you love?

We MUST shelter our friends in the homeless community.

Please pas LD 211.
