

Kelly Moulton
OADS

Good morning,

I am writing in response to the 55/25 bill. Although this bill will not effect me and my retirement, I do believe that it is an important bill. We as Crisis Workers enter many different types of situations unaware of the possible harm that may come to us or our clients. We have clients with varying disabilities in our Crisis Homes with some requiring multiple restraints to elevate harm from staff and clients. Due to the demands of the job that can cause physical and mental hardships for Crisis Workers, the 55/25 bill would be a benefit that would allow Crisis Workers to retire before the demands of this job become a permeant disability.
