Dear Labor and Housing Committee,

I am a property manager of long-term rental housing units in Central Maine. I am writing to express my strongest opposition to LD 1397. I am opposed on several grounds: it is an overreach of government, and it will be an administrative burden for both landlords and the government. I believe this would be a long-term burden. I also cannot see substantial benefits to government, tenants, or landlords. Please oppose this bill.

Regards,
