Labor and Housing Committee

An Act to Promote Energy-Efficient Affordable Housing

Dear Chair and Honorable Committee Members,

My name is Don Nazaroff, I am from Greene, ME and a lifelong resident of Maine. I work for Sheet Metal Workers Local 17 as a Representative and have been in trade for over 35 years. I fully support LD1656, and I ask that you do as well.

This is a very prudent means to helping Mainers in an area where all can benefit from this Bill.

First of all Energy-efficient affordable housing is just what Maine needs. But to do it with reputable and accountable contractors that have Apprenticeships and signing them to a contract that is clear for both the State and the contractor makes perfect sense.

I ask that you would support and sign onto this very important Bill which will benefit Mainers and the State of Maine for years to come in a time where we need common sense paths into our future.

Thank You,  
Don Nazaroff
