

Mark Chasse
Auburn
LD 2003

LD 2003 OUGHT NOT TO PASS as this would have a negative impact on my town in terms of traffic, costs, pollution, water quality, school resources and taxes.

This will all be compounded by the fact that we are visibly entering an inflationary period that will be taking our ability to purchase food and fuel.

This goes for the other following bills as well which ought not to pass:

LD 463
LD 831
LD 1961

THANK YOU
