

Julie Edminster
York
LD 2003

Dear Members of the Labor and Housing committee,

I urge you to vote LD2003 "OUGHT NOT TO PASS". This bill will change Maine forever. I urge you to continue to give local municipalities their own control over planning and zoning for their communities. This bill is absurd! The people of Maine care so deeply about their environment and the communities are doing a great job protecting the main environment. Maine is a local control state and I urge you to keep zoning and planning at the local level.

Sincerely,
Julie Edminster
York, Maine
