

Ron Goodspeed  
Cape Elizabeth  
LD 2003

This bill if ever passed would totally undermine every fundamental of home rule! Those who pay tax dollars within their respected towns/cities have every right to determine how they would like to be governed. This bill would negate any and all work that volunteer citizens have give in the past and currently to reflect the desires of their fellow citizens desires as to how they would like to have their municipalities governed. Augusta and god knows Washington can not know the pulse of a community more than the residents!  
Please do not let this bill see the light of day!!

Thank you, Ron Goodspeed, Cape Elizabeth
