

Daniel Long
Holden
LD 2003

I am writing with respect to LD2003, in opposition to any override of local zoning ordinances that protect single-family neighborhoods in Maine from high-density Section 8 apartment projects. I'm advocating for maintaining local control. I do not want higher property taxes and additional stress on school systems already short on teachers, and likely higher subsequent utility bills. My desire is to keep control at the local level so municipalities can continue to manage and protect themselves. I say, let's protect single family home neighborhoods that are the face of Maine's slogan, "The Way Life Should Be." Please vote in opposition to LD2003.

Sincerely,
Daniel L. Long
