LD 2003

Please cease and desist further consideration of LD2003.

Passage of this bill will create hardships for citizens and residents in each municipality affected by such passage.

Hardships include economic burdens imposed on taxpayers already suffering from ever increasing prices in consumer goods and in ever higher tax payments.

Additional hardship likely could include decreased personal security and increased crime, as recently has happened in South Portland, Wells, Sanford, Old Orchard Beach and elsewhere where subsidized housing has been provided for free for unilateral benefit of recent arrivals to Maine.

Passage of this bill will expedite creation of conditions which, elsewhere on planet Earth, result in decent people living within the confines of walled, gated, guarded compounds while criminal elements roam the streets.
