LD 1464 - An Act to Remove the Waiting Period for Benefits Under Maine's Unemployment Insurance System Mr Speaker, Members of the Committee
LINDA HASKELL, Garland, Maine opposition to this LD1464.

The waiting period of one week is a must in our State of Maine. It has served well for all of us in the history of this Law/Statute. There was a purpose for instituting this time period and it should remain in its standing. Also, individuals going onto unemployment should be out there searching for jobs in the meantime. The State of Maine has numerous entrepreneurs starting businesses in the last few years of this terrible infliction of covid and its mass production of fear promoted to harm the economy. The need to live off of the government, which is supported by the working force, needs to stop. I oppose LD1464
