

Janet Drew  
York

I write to thank you for thoughtful work to support oceans & ME fisheries  
But to question (angrily) why the Environmental committee has 3 bills to repeal plastic bag  
ban

Testimony re 3 bills LD 39, 108, 244:  
Less plastic products, not more

Oceans and fish are dying from plastic  
We are eating fish containing plastic.  
Maine relies on clean oceans for jobs food jobs tourism.  
We have a climate plan to end fossil fuel reliance.

Let's have a bill to STOP  
polluting needlessly with plastic bags, containers, wraps. Governors, mayors STOP corps  
from inundating us & earth.

Stand up for a National/International TOTAL ban on use of plastic containers, bags, wraps for  
personal & household products.

Nestle's only pays for half their ME water & puts Then they put it in polluting bottles that  
people buy because their tap water is not safe  
DO BETTER
