

Chris McIntire
Orrs Island

Senator Miramant, Representative McCreight, and members of the Marine Resources committee. My name is Chris McIntire and I am a lobsterman from Orrs Island. I am writing to voice my support LD 1146. The rules and regulations are leading to aquaculture growth without a plan. I encourage the committee to look at why anyone needs 1,000 acres of Maine's oceans and why conflict is increasing in communities across Maine regarding all those who use the water. I hope you will look at this and include all voices in this conversation.
Thank you.
