

Shawn Shannon  
Hidden Creek Oysters

To all,

As an oyster farm owner myself, I am deeply concerned with the language of this bill as well as the motives behind it. This bill will effectively stall all new lease applications regardless of size as Maine's leasing system is a first in first out basis. My 1 acre lease application will be stuck behind multiple larger farms applications which, if this bill passes, will take years for completion. I whole heartedly oppose this bill and hope everyone else will as well.
