

Eric Best
Frenchboro

I am a resident of Frenchboro and aware of the many pressures and demands on the regional coastal commons, which must be sensibly managed to account for local (current fisheries impacts) as well as planetary conditions (climate change.) I am strongly in favor of LD1211 as a step towards more sensible and holistic management, not just of Frenchman's Bay, but across state borders as well as the border with Canada. None of these challenges can be met or managed without due consideration for the various demands and constraints in the coastal management areas, and not limited to 3 miles out. Please vote to approve LD 1211. Eric Best, 30 East Shore Road, Frenchboro 04635
