

Sheila Dassatt
Downeast Lobstermen's Association

The Downeast Lobstermen's Association supports Representative Faulkingham's Bill, LD 101. We are not in favor of windmills on the Gulf of Maine. There is too much at stake for our fishing industry, which goes back many generations. Our traditions and livelihoods are at stake, as well as the resource.

The Windmills are also a threat to the protected whales and seabirds.

There is also a threat to the landfills once the turbines are put out of commission. They are not Green in our terms! Please take this bill into your consideration. Respectfully, Sheila Dassatt, Executive Director, Downeast Lobstermen's Association
