I fully support LD 1039 - An Act To Safeguard the People's Voice in a State of Emergency and request that members of the Legislature move to pass this bill. It has become evident in the last year that the Governor's unlimited powers in the way the law was previously written concerning a State of Emergency needs to be updated. The Legislature which is the voice of it's Constituents needs to be able to give voice to the people. Emergencies do not last forever; in the case we are dealing with now, we have learned that many disagree with the degree of emergency we are in. The three separate areas of government are supposed to give a checks and balance that allows for the voices of the people to be heard. Please hear our voices, change the Governor's Executive Powers in a State of Emergency let our voices be heard. Thank you
