To Whom It May Concern:

I fully support every bill that limits the Governor's ability to declare, or extend, emergency declarations without 2/3 vote in both houses.

I fully support every bill that ensures the legislature must reconvene and cast 2/3 vote in both houses before the Governor can declare, or extend, emergency declarations.

I fully support every bill that reduces the duration of an emergency declaration.

I fully support every bill that reaffirms Mainer's constitutional rights even during emergency declarations and pandemics.

I fully support every bill that recognizes EVERY LEGAL PROFESSION/TRADE IS ESSENTIAL.

I fully support every bill that prohibits the Governor's ability to declare emergencies solely to receive federal funds to offset fiscal irresponsibility.

I fully support every bill that ensures Mainers may pursue legal action when the Governor abuses their emergency declaration powers; even during pandemics.

I also support every bill that that strengthens voting integrity (e.g. voter ids, signature verification, limiting reasons for absentee ballots, eliminating ballot drop boxes, paper ballots with hand counting (no software or machines without thorough investigation into 2020 irregularities), eliminating rank choice voting, one voting day, eliminating mail-in ballots, etc.).
