

Geraldine Thibodeau
Dixfield

This has gone way to far. This government has too much power. It needs to be reminded that they work FOR the people. I m so disgusted by what I am seeing in this state alone! People have been afraid way too long it's time they make up their own minds weather to wear a mask or not. Get this state open people are loosing their businesses, their jobs and in some cases even their church. This emergency thing has gone way too far!
