I believe Gov. Mills' mask mandate is illegal and discriminatory. She is not following the federal law concerning medical exemptions and is putting the people with medical conditions that prevent them from wearing a mask at a health risk. She is claiming she is concerned about everyone's safety, but she is putting the medical exempt people's health at risk. And it is discriminatory because it discriminates against people with medical conditions by not allowing them entry into places because they cannot wear a mask. I, myself, have a condition and several times while shopping have become light headed because my breathing was restricted by a mask. The ADA even states that a business can be fined up to \$92,383 for violating the exemption law. In short, Gov. Mills is ordering businesses to break the law in enforcing her mandate. She cannot order a business to violate a law to satisfy her lust for power. I think this is a crime and I believe her emergency powers should be overlooked and amended.
