

Al Cookson
Cambridge

Hello, my name is Al Cookson. I'm sending you this email to urge you to please vote no on LD 805. It's my personal belief that we already have enough gun control laws and should focus on enforcing those. In the past few years I've noticed anthere has been an increase in drug use and drug trafficking in our state as can be seen in the news as well as what I've personally seen. With law enforcement at least 30 minutes away from where I live it's imperative that we have the right to and means of self defense. And as you never know when you may have to defend yourself, no municipality should have the right to limit your ability to do so. As a law abiding Maine citizen I just don't understand why some folks are so intent on taking away any of my rights.

Thank you for considering my opinion.
