LD 859

To Whom It May Concern:

I am writing in opposition to LD 859. I don't support ranked choice voting in federal, state, or municipal elections.

Only legal citizens of the United States of America should be able to vote in federal, state, and municipal elections. Legal citizens are entitled to ONE vote.

Ranked-choice voting is confusing to some voters, unnecessarily delays the counting /reporting process, and only intends to elect candidates who couldn't cut it as a first choice.

LD 859 Ought Not Pass.

*I will officially submit my testimony as well.
