

LAURA LANDER  
Harpwell

Dear Maine Legislators,

I am writing to urge you to pass LD 805. In light of the contention surrounding recent elections combined with the proliferation of gun violence across the nation, the least we can do is endeavor to safeguard citizens as they exercise their right to vote by allowing municipalities to ban weapons at polling places. To continue along the trajectory we are on makes no sense. Please take this step in helping to insure safe and fair elections.
