If the voting location is in a school, I GUESS I would be OK with Municipalities not allowing firearm at polling locations. However, there is no data to suggest that a person who is lawfully allowed to own and carry a firearm has been the perpetrator of a violent or intimidating act at a Maine voting place. Maine was ranked as safest state in the nation last year and has ranked in the top 5 for years. This bill has no merit and will only restrict voter turnout. Do the right thing and keep Maine safe by allowing what has kept Maine one of the safest states in the nation.
