Greetings Members of the State and Local Government Committee,

I will keep this brief. Please vote Ought not to pass on LD 805 - This attempt to restrain law abiding citizens from carrying a firearm comes up frequently by the Gun Grabbing crowd. Taking our guns away any time allows us to be vulnerable to those who will not follow the law. I hope someday they realize this is not a solution. Gun Free Zones are victim zones. That is where the mass shooters love to go because they are safer with us unarmed. It is time to end the nonsense. You can make a good start here by a unanimous vote of Ought Not to Pass. Send the statement please.
