To Whom It May Concern:

I strongly urge you to fund LD 2 -the Permanent Commission on the Status of Racial, Indigenous and Maine Tribal Populations. We have an opportunity to address the needs of non-white citizens of our state. Their needs are as important as the needs of white citizens but for many reasons unless we focus on this specifically their needs will be at best an afterthought. As we know volunteer efforts can only go so far.
The work of the committee cannot proceed without funding.
