I strongly support the work of the Permanent Commission on the Status of Racial, Indigenous and Maine Tribal Populations. I believe this Commission will benefit Maine in many ways - including economically. Ensuring that every resident of Maine is able to reach their full potential through fair and equal treatment can only be good for everyone. Obviously the potential of the Permanent Commission won't be reached if it does not have the financial support of the State. So let's not fool around - let's put our money where our heart should be and see that this work gets done. Please approve funding as requested by LD 1034.
