

Kirsten Denney
South Bristol

Please do not limit our ability to rent our home! Allowing us to do so is a win-win-win-win. How?

- 1) We can afford to keep our home (I'm trying to remain calm since I heard of this piece of legislation)
- 2) Our visitors have beautiful places to vacation, most of whom specifically want to rent a home and not stay in a hotel
- 3) Lodging tax provides substantial revenue to the state
- 4) We can't afford, in this climate- and resource-challenged world, not to make the best use of anything that can be shared! We'd have to sell to someone who could afford to use it only for themselves - and more hotel rooms would need to be built for the booted-out guests and so on.

Thank you
