

Richard Hurst
York, ME

As a long term part time resident of York Maine where we have been fortunate to help the local economy by having summertime renters stay in our home when we are not using it. We have been doing this since my Grandparents built our cottage in the 1950s and it allows us to help defray costs of ownership as well as contribute to the vibrant summer business in the community. We appreciate and value this right to use our home and rent it responsibly as we always have and hope that this right will be protected. Thanks for your consideration.
