

Susan Johnson
South Montville

I fully support short term rentals in Maine. I own a property in South Montville which we have rented using Airbnb and VRBO. It has been very successful. Not only does it assist our financial means for keeping family home but it brings tourists into the state thus supporting the economy. Municipalities should support short-term rentals. They are not a problem in the community. They support the community bringing in tourism. I have had rentals from across the nation and from abroad and several repeat customers who have found a favorite vacation spot in Maine. It is with pleasure that I share our beautiful property. Please vote in favor of LD1365 and prevent locals towns from prohibiting rentals. It should be a decision of the home-owner.
