To Whom It May Concern:

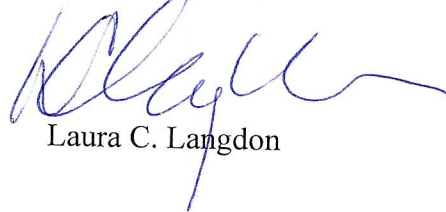

Please accept this as my written testimony strongly advocating for short term rentals.

My property on North Haven is inherited, purchased in 1963, and not something I could have currently afforded to purchase. In order to pay the taxes, flood insurance (which is exorbitant, \$4000), all utilities, and last but not least, repairs, I have to use short-term rentals to do so to keep what I consider to be my legacy to my family. Additionally, my house is *not* winterized and therefore seasonal, leaving me with a window of rentals between Memorial Day Weekend and Columbus Day Weekend.

Please do not even consider taking this right away from me and innumerable others that are in the same boat. As has time has gone on, today's "summer people" are not those of the wealthy past but their descendants no longer wealthy and fighting to keep what was passed down to them.

With kindest regards, I am

Very truly yours,

Laura C. Langdon
