Freeport

Dear Members on the Committee of State and Local Government, my name is Gina LeDuc-Kuntz. I am a resident of Freeport.

I am writing to urge you to vote "ought not to pass" on LD1123.

I am curious which victim of covid-19 this bill seeks to create a memorial for? Will it be our school children who have lost so much of their education? Will be some of those children who took their own lives to do the unbearable social isolation Gov. Mills' mandates thrust upon them? Will it be our drug addicts who succumbed to their addictions? Will be our collapsed businesses? Who?

I urge you to vote against LD1123. It is offensive.
