

Alison McCormick
Old Orchard Beach

I support the passage of this bill as it would serve to protect me. I live on social security and the seasonal rentals that I receive in my duplex home allows me to live independently: I would not be able to otherwise. If hotel owners in town, some who serve or have served on the town council, were to enact a law to prohibit my short term rentals this would impoverish me. And their motive would be to reap the benefit of the additional tourists I have lost.
